Bachelor of Science in Computer Science

Herat University | Herat, Afghanistan   2021

PROFESSIONAL EXPERIENCE

DevOps Team Lead

TrueTale | United State, Remote   May 2022 – Present

- Lead a team of 2 DevOps engineers in the design, development, and maintenance of the company's cloud-based infrastructure, on Amazon Web Services (AWS).
- Collaborated with the development team to ensure seamless integration of code into the production environment.
- Implemented and maintained Continuous Integration and Continuous Deployment (CI/CD) pipelines, reducing deployment time and increasing deployment frequency by using GitHub actions.
- Managed and maintained the company's infrastructure as code (IaC) using AWS CDK , ensuring consistency and reliability across environments.
- Designed and implemented monitoring and alerting systems using New Relic, reducing downtime and improving incident response times.
- Improved security posture by implementing best practices such as network segmentation, access control, and encryption, resulting in successful compliance audits.
- implement new DevOps tools and technologies to increase team productivity and reduce infrastructure costs.
- Mentored and trained team members in DevOps best practices and tools, resulting increase in team performance and engagement.

Programming Team Lead

NovaVTeam | Herat, Afghanistan   August 2021 – May 2022

- Lead a team of 4 developers in the design, development, and maintenance of complex software applications
- Collaborate with product managers, project managers, and other stakeholders to define project requirements and ensure timely delivery of high-quality software solutions.
- Provide technical guidance and mentorship to team members, ensuring that best practices are followed and that code is maintainable and scalable.

Network and System Administrator

NOC Herat University | Herat, Afghanistan   March 2018 – August 2021

- Performed various tasks pertaining to the network system at Herat University, such as design, implementation, and maintenance
- Diagnosis and prognosis of various IT issues in a timely and efficient manner

- Provided guidance to junior members at NOC and trained the new members for various activities and skills
- Let seminar discussions and training programs at department level
- Provided reports to higher authorities and supervisors on a regular basis
